NSS is a healthcare training & nurse staffing offering non-academic healthcare training. Training includes flexible, hybrid, & virtual HCA, CNA*, AED, First Aid & CPR (OSHA, childcare, BLS) courses. Home Care Aid & Nurse Assistant* courses offered with the American Red Cross & DSHS curriculum. NSS offers all contract nurse staffing options. We offer screening, recruiting, & onboarding of RNs, LPN/LVNs, MAs, & CNAs. NSS provides an emergency medical response from small community events to national disaster relief. NSS offers DEI training to support patient safety, workforce retention, & productivity. The training, staffing, equity, & emergency medical response divisions provide job training & opportunities for those with disabilities, the unemployed, veterans, transitioning service members, & vocational rehabilitation. This healthcare training provides technical skills & job placement while remaining accessible via mobile & online applications.

CORE COMPETENCIES

Training

- CPR for trades - OSHA 29 CFR 1910.151(b) & 1926.509(c)
- Certified American Heart Association (AHA) First Aid, CPR, BLS Instruct.
- Accredited, certified certificate-granting pre-nursing course, exam-prep Home Care Aide (HCA-75 Hours) fulfilling state hour minimums.
- Virtual or live coursework, lab simulation, clinical skills check-off.
- Direct student analysis to measure the impact of training, effectiveness trends, student progress, and knowledge gaps.

Staffing

- Core Values: Quality, Integrity, Respect, Compassion, & Dignity
- Screening, recruitment, onboarding, & deployment of medical staff
- Fulfill staffing requests according to facility needs.
- Clear communication, documentation, & invoicing procedures
- Impeccable customer service and employee appreciation to maintain a positive rapport.

DIFFERENTIATORS

- Improves access to learning for rural, underserved, & working people while lessening the national shortage of nursing staff; virtual & online
- Reduces training costs for medical facilities and students.
- Supports learning of clinical & soft skills through simulation, 3D imaging, group interaction, videos, quizzes, & online instructor engagement
- Maintains student engagement through gamification, various learning formats, micro-learning, & application.
- Fosters and maintains collaborative relationships with medical facilities across Washington State for job placement.
- Complete automation from course catalogue to certification

EXPERIENCES

- 20 years of combined nursing experience in critical care, emergency department, skilled nursing facilities, assisted living facilities, primary care clinics, vaccination clinics, community events (more) in per diem, contracted, float pool, and permanent positions.
- Provides training in higher education and adult learning for over four (4) years and 20+ years of patient and community education.
- Created multiple credit courses at a state university for online and adult education.
